

Introduction

The APN Partner Enablement benefits offer funding to accelerate the onboarding of your technical resources and help to prepare your team for the AWS Certification Exam. The expectation for APN Partners is that those who take advantage of the subsidized training will sign up for and complete the associated Certification Exam. APN Partner funding benefits for Training and Certification are to support APN Partner individuals to be skilled and AWS Certified (Note: APN Partner customers are not eligible to receive APN funding benefits).

APN Partners may be eligible for 50-70% off AWS Training delivered by APN Training Partners (ATPs) as well as an AWS Certification exam voucher once training is completed. The discounted training applies to 3-day Technical Training courses that lead to AWS Certification, which includes the following: **AWS Technical Essentials (when done with a 3-day course)*, Architecting on AWS, Developing on AWS, Systems Operations on AWS, Advanced Architecting on AWS, DevOps Engineering on AWS, Security Engineering on AWS, and Big Data on AWS. Additional certification exam preparation is highly recommended.

Training course schedules, prices as well as availability may vary by country. Seats are limited and registration is on a first come, first serve basis.

FAQS

Q: Is there a limit to the number of resources an APN Partner company can send to the ATP discounted training?

A: No, there is not a restriction on the number of resources per APN Partner. However, ATP discounted training has a limited number of courses and seats available. Registration is first come, first served. ATP discounted training is subject to availability.

Q: How do I register?

A: Some ATPs have created landing pages provided in the list of ATPs. Simply click on the link provided, select the class, and register for the selected date. ATPs that do not have a landing page just send an email with Subject: APN/Country YOUR COUNTRY Training Program and provide the course, and number of resources attending training.

Q: Can we register for a private onsite course?

A: Yes, with a minimum of 12 or more resources. Reach out to your AWS Partner Manager with the details, including ATP Name, Course, and number of students.

Q: What type of delivery method is available?

A: Individual-led in classroom training, Virtual-led training, and private onsite.

Q: How do I get the certification exam?

A: APN Partner individuals must complete the training course before receiving the certification exam voucher. The ATP issues certification exam vouchers once training is completed.

Q: How long do I have to take the certification exam?

A: Certification exam vouchers will typically expire within 10-11 months after receiving them from the ATP.
